All unit holders who have maintained their unit holdings in the Fund as at 22 February 2016 will be entitled to the income distribution.

As at 31 December 2016, the Fund chartered a return of 16.70% since inception, outperforming its benchmark (i.e. 3-year Maybank fixed deposit rate as at commencement date) by 8.57%¹. This distribution is consistent with the Fund's objective which endeavours to provide regular income² during the tenure of the Fund by investing in local and/or foreign debt securities.

end

¹Fund performance is sourced from Lipper for Investment Management (as at 31 December 2015) and benchmark is obtainable from Eastspring Investments Berhad upon request. Performance is calculated on a Net Asset Value ("NAV") to NAV basis with gross income or dividend reinvested. Past performance is not necessarily indicative of future performance.

²Income distribution proceeds will be paid out by way of cheque.

The Eastspring Investments Target Income Fund 2 ("Fund") is a close ended fund and units are no longer available for sale on the basis of the Fund's Prospectus dated 27 June 2013 ("Prospectus").

Investors are advised to read and understand the contents of the Fund's Prospectus and Product Highlights Sheet ("PHS") before investing. The Prospectus and PHS are available at offices of Eastspring Investments Berhad or its authorized distributors and investors have the right to request for a copy of the Prospectus and PHS.

The Prospectus has been registered with the Securities Commission Malaysia who takes no responsibility for its contents. Units will only be issued upon receipt of the application form accompanying the Prospectus. Past performance of the Fund is not an indication of the Fund's future performance. Unit prices and distribution payable, if any, may go down as well as up. Where a unit split/distribution is declared, investors are advised that following the issue of additional units/distribution, the Net Asset Value ("NAV") per unit will be reduced from pre-unit split NAV/cum-distribution NAV to post-unit split NAV/ex-distribution NAV. Where a unit split is declared, investors are advised that the value of their investment in Malaysian Ringgit will remain unchanged after the issue of the additional units.

Investments in the Fund are exposed to credit/default risk, counterparty risk, interest rate risk, country risk, currency risk, taxation risk, income distribution risk, liquidity risk, asset mismatch risk, concentration risk, ratings downgrade risk and derivative risk. Investors are advised to consider these risks and other general risks as elaborated in the Prospectus as well as fees and charges involved before investing.
